Premiere Pro system requirements

Your system must meet the minimum specifications to run Premiere Pro (see below). If you are considering hardware upgrades, see [Optimizing your System for Premiere Pro and After Effects](#) for more information.

Applicable for:
October 2020 (14.5), November 2020 (14.6), and December (14.7) releases

System requirements for earlier releases:
[Premiere Pro system requirements | November 2019 (14.0) to September 2020 (14.4) releases](#).

Note:
Upcoming changes to operating system support

Effective in January 2021, new releases of the Creative Cloud video and audio applications will require macOS 10.14 (or later) or Windows 10 v1903 (or later).

This is in keeping with our policy to support the current and the most recent previous version of each operating system, which allows us to focus our resources on modern architectures.
