WE LISTEN

Optoma's interactive displays are designed to fit the needs of teachers and students seamlessly. By listening to educators and gathering customer feedback, Optoma creates solutions that remove the challenging barriers facing teachers today. The result; intuitive user-friendly software to work in harmony with the way you educate. **Create. Connect. Teach.**

We provide premium displays

With over 20 years of experience providing innovative displays to some of the largest school districts and universities, Optoma offers a variety of display solutions that are easy to use and install from projectors and interactive flat panel displays to LED displays.

We focus on added features

Optoma designed features to help teachers engage and collaborate with students. Start any lesson in seconds. From the quick launch pen to activate the Creative Board app or annotation mode automatically or sync with your cloud accounts to plan your lessons from anywhere, at any time.

We focus on service

Optoma is committed to provide the best in class customer service and support. Customer satisfaction is a top priority and our teams are available to help you.

TEACHER LED TECHNOLOGY

Designed to support distance learning, Optoma's Creative Touch 5-Series allows students to work together in real time from home, in the classroom or anywhere, maximizing engagement in remote and hybrid learning environments.

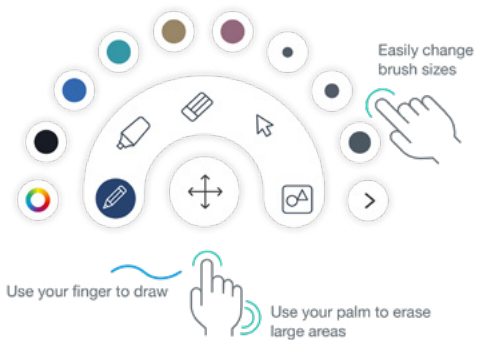

With the ability to connect to webcams along with Optoma's unique software, the Creative Touch 5-Series provides the ultimate collaboration solution for education.

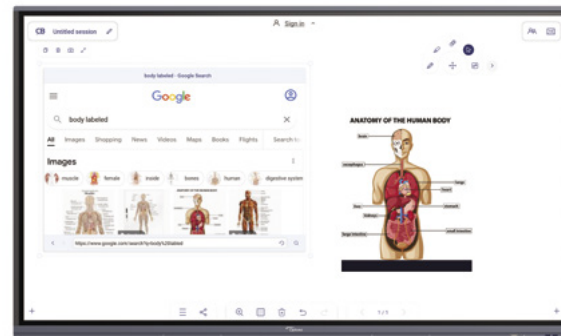

CREATE, CONNECT AND COLLABORATE WITH **CREATIVE BOARD.**

Creative sharing is easy with built-in annotation tools to help facilitate collaboration in the classroom. Designed for hybrid working - Creative Board provides smart collaboration and connectivity features for any classroom. Work simultaneously. Multiple teams or individuals can work together from two separate locations in real-time.

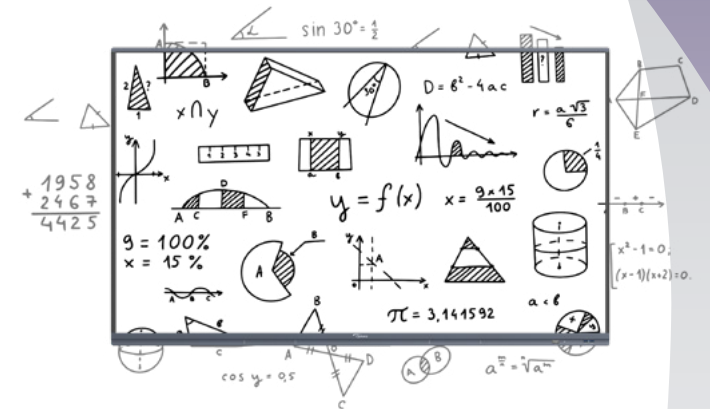

Change tools at a touch with our floating toolbar

Easily move and position the toolbar anywhere on the infinity canvas. Instantly select tools or choose different pen settings for smooth and flowing lessons.

Access websites without leaving the whiteboard

Enhance your lessons and keep ideas flowing. Easily drag and drop images and video content from the embedded browser directly into the Creative Board canvas.

Never run out of space with our infinity canvas

Never run out of space during a lesson. With the ability to draw anywhere, insert images and shapes, all of which can be saved, printed or shared with student devices, the infinity canvas will not limit your creativity and expands your workspace.

ULTRA-VERSATILE QUICK LAUNCH PEN CREATED FOR TEACHERS

Simply take the pen from the holder and the Creative Board app or annotation mode will launch automatically. For the ultimate convenience, teachers can customize the functionality of the pen and tailor it to their daily needs.

Change at a stroke

Make annotations at any time on any type of content whether video or static. The quick launch pen features a dual-tip, enabling teachers to switch between note taking and highlighting in just about any color – ensuring lessons flow with ease.

CONNECT EASILY WITH THE CLOUD WHITEBOARD

Sync with your cloud accounts to plan your lessons from anywhere, at any time. As Creative Board is a cloud-based platform, you can access your lesson materials from any Optoma Creative Touch 5-Series IFPD in your school.

Save lessons to your cloud account, to the screen, or via QR scan and access your notes and work again at a later time.

Collaborate in
the cloud across
different locations

CREATIVE SOFTWARE SOLUTIONS

Intuitive user-friendly software to work in harmony with the way you educate.

Google Classroom

Teachers can easily create and import lesson materials anywhere. With single sign-on (SSO), you can quickly sync with Google Classroom bringing the benefits of paperless sharing and digital collaboration to the classroom. Teachers can now work on their lesson plans from home, and instantly bring them to any classroom.

Remote Management Solution

Teachers can have peace of mind knowing their IT managers can support them remotely using Optoma's Management Suite (OMS) solution. IT managers can monitor and diagnose issues with any Optoma AV display so teachers aren't left in the dark. Teachers can also set alerts and broadcast emergency announcements.

Creative Cast

Connect any device. Wirelessly broadcast, share or stream your content to the big screen with Creative Cast Pro™. Screen mirror high-quality images, video, documents and audio from your smartphone, laptop or PC – all with the touch of a button. Bringing your own device has never been easier.

IFPD ACCESSORIES

Several accessories are compatible with your interactive flat panel display for added convenience and to enhance your experience.

OPS

This lightweight, slot-in device is the perfect answer to your growing computing power requirements.

Operating system not included.

Wall mounts

Mount your IFPD with our wall mount designed for easy installation and adjustment.

Carts

The fixed and motorized adjustable mobile carts allow you to easily transport your display between locations.

WiFi Bluetooth module

Combined WiFi and Bluetooth module for Optoma Creative Touch 5-Series interactive flat panel displays (5652RK, 5752RK and 5862RK). Now supports WiFi 6, with a new and improved antenna-less design.

RECEIVE THE BEST SERVICE

At Optoma, we strive to provide the best service and support for our customers and satisfaction is our number one priority. We encourage feedback pre and post purchase so we may continue to exceed customer expectations.

Technical support

Optoma's dedicated customer support team is available to answer all your questions.

Warranty upgrade promotion

For a limited time – September 1st to December 31st, 2022 purchase a new Optoma Creative Touch Series 5 – Gen-2 IFP, 5652RK, 5752RK, or 5862RK and receive a five year ON-SITE service warranty.

CASE STUDY

SUSSEX LEARNING TRUST CHOOSE OPTOMA

Sussex installed ten Optoma interactive flat panel displays across the different departments and schools.

Sussex Learning Trust is responsible for the successful management and development of three schools: Warden Park Secondary Academy in Cuckfield, and Warden Park Primary Academy and Northlands Wood Primary Academy in Haywards Heath.

The technology is being embraced. It's been a challenging year for everyone; with the addition of hybrid learning - there has been lots to learn. There is now an understanding of how technology can improve the classroom and everyone is enjoying the technology.

Dave Lang,
Digital Services Technical Manager at Warden Park Secondary
